PROFESSIONAL SUMMARY

Motivated Automotive Engineering student and digital professional developing practical skills across web development, artificial intelligence, research, writing, data entry, video editing and digital technology. Experienced in building responsive web pages with HTML, CSS and JavaScript and using modern digital and AI tools for research, content creation and productivity. Creative, adaptable and detail-oriented, with a strong interest in solving problems and turning ideas into useful digital projects.

CORE SKILLS

HTML5 • CSS3 • JavaScript • Responsive Web Design • Web Development • Git & GitHub • AI Tools • Prompt Engineering • Online Research • Data Entry • Content Writing • Copywriting • Technical Writing • Video Editing • Graphic Design • Computer Skills • Microsoft Office • Problem Solving • Communication • Automotive Engineering

TOOLS & TECHNOLOGIES

- HTML5
- CSS3
- JavaScript
- GitHub
- Git
- Visual Studio Code
- Canva
- CapCut
- Microsoft Word
- Microsoft Excel
- Microsoft PowerPoint
- Google Docs
- Google Sheets
- Google Drive
- AI assistants and generative AI tools
- Web browsers and online research tools

EDUCATION

Thika Technical Institute (TTI)

Automotive Engineering

2026 – 2029

DIGITAL SERVICES & CAPABILITIES

Web Development — Modern and responsive websites using HTML, CSS and JavaScript.

AI Assistance — AI-supported research, content creation and digital productivity workflows.

Data Entry — Accurate data entry, organization and spreadsheet tasks.

Research — Online research, information gathering and organization of information.

Content Writing — Articles, descriptions, reports and digital content.

Video Editing — Basic editing, cutting, transitions, text and content preparation.

CV & Resume Support — Professional resumes, profiles and career documents.

Technical Support — Computer, software and basic digital troubleshooting.

PROJECTS

Personal Portfolio Website

Built a responsive personal portfolio using HTML, CSS and JavaScript, presenting skills, services, projects and contact information.

AI Digital Workflows

Developed research and productivity workflows using modern AI tools, with a focus on information gathering, writing and digital task support.

Automotive Learning & Research

Completed technical learning and research activities related to automotive engineering, building practical knowledge alongside digital skills.

ADDITIONAL QUALIFICATIONS

- Basic computer and digital skills
- Basic knowledge of digital content creation
- Willingness to learn new technologies and software
- Strong interest in AI, web development and engineering
- Adaptable and able to work independently or collaboratively
